IMMEDIATE DANGER

If you find yourself in immediate danger during a shooting incident within your work center **Escape** from the scene or **Hide Out**.

During **ESCAPE** plan your route, leave your stuff behind and exit with your hands visible. Security Forces personnel may mistake you for the shooter.

If you **HIDE OUT** contact 911 as soon as possible.

As a **LAST RESORT...TAKE ACTION**

If you find yourself in **IMMINENT DANGER** take action. Attempt to incapacitate or act with physical aggression and throw items at the active shooter.

RISK of DANGER

If you find yourself in risk of danger but are not being immediately threatened...

Secure Yourself and your Location

Once secured, position yourself in a place clear of direct fire. You should be able to observe the ingress and egress routes. This will include the process of Sheltering in place and Mitigating the vulnerabilities to the room. Mitigation will start with locking the doors and windows and barricading the access. Turn off the lights and make your location appear unoccupied. Monitor communications i.e. phone, computer, radio.

Account for Personnel and Report

By whatever means you have available contact your Unit Control Center (UCC) or Chain of Command (CoC) and inform them of your location, status and the personnel present.

Stay Put

Until the authorities instruct you to move or you have been released **DO NOT MOVE**. Persons milling about increase confusion and the likelihood of injury.
